

COVID-19 Statement

Since the start of the pandemic, our number one priority has been the safety of our team members and customers. So, as we gradually return to normal, we want to make sure you continue to feel safe when visiting our café. Many of our safety measures remain in place after 19th July 2021: our volunteers continue to follow enhanced hygiene and safety processes and hand sanitiser is still available.

While face coverings and two-metre social distancing are no longer be mandatory, we know that for many customers and volunteers, these practices continue to provide reassurance when they are in public places. Our volunteers continue to wear face coverings in order to protect fellow volunteers and customers.

We would respectfully request that customers continue to wear a face covering when entering the café until they are seated at a table. In addition, we would ask that you support those who would like some additional space when ordering for outdoor service/takeaway or choosing to sit inside, by maintaining social distancing.

Thank you for your cooperation.

The Wilfrid's Team.
